

Hello!

Here at Local Internet Ads, we are committed to bringing you NEW customers! We also want to keep businesses informed on how we are working for them every day.

To help you get seen online, we optimize your Bing local listing along with your Google Places listing.

When potential customers are deciding which company to do business with, they log onto Google, Bing, MSN or Yahoo and search for businesses in their local area. We optimize your local map listing on Bing so potential customers are one click away from using your company. Your Google Places listing gives detailed information, helping potential customers make the decision to use your services, instead of your competitors. Let's take a look at Funk's Auto Works, one of our customers...

Here is what your map listing looks like on Bing:

Jasmine - Mar 10, 2010
 ★★★★★ **Honest, fast and reliable - the BEST!** Art has been working on our cars for many years. On at least 2 occasions, he checked out an error light, determined that there was nothing wrong and did not charge us. On every other repair or service, he's totally honest and fair in the work he does and what he charges. I wouldn't go anywhere else!

Ofelia - Sep 15, 2009
 ★★★★★ **Customer Since '96!** After calling several shops for a tune-up quote, Art was the only one out of a dozen who asked point blank, "why do you think it needs a tune-up?" His next response was, "I cannot give you a quote for something that may not need a tune-up. I'd like to look at it first before I quote you." He's been my sole mechanic through two cars and I shudder at the thought of going elsewhere. I moved almost 40-miles away and still continue to take my car to Funks Automotive. If you want honesty, reliability, and fairness, why go elsewhere?
